

# Appeal to Rep. Chris Van Hollen

We call upon Rep. Chris Van Hollen to stand up for ordinary people in his role on Congress's Super Committee, in these ways:

- **Create jobs and get people back to work.** Invest in infrastructure, green energy, and education.
  - **End the Afghanistan and Iraq wars.** Bring all our troops, contractors, and money home.
  - **Cut the bloated Pentagon budget.** Stop building new weapons systems and nuclear weapons facilities we don't need. Close overseas bases. Support a cooperative, less militarized U.S. foreign policy.
  - **Hands off Social Security.** It does not contribute a penny to the deficit and is safe for decades to come
- **Restore fairness to the tax system.** Tax millionaires, billionaires, capital gains and speculation.
  - **Control health care costs with Medicare for All.** Get profit-gouging corporations out of health care delivery with a single payer system.
  - **Save the environment.** Make the investments necessary to substantially reduce greenhouse gas emissions.
